

# WHAT IS WPM CP?

## Wood Packaging Material Compliance Predictor

WPM can act as a pathway for foreign plant pests, diseases or invasive species.

There are multiple different packaging options such as Wood packaging, Manufactured Packaging or both.

At border compliance verification forms part of the plant protection risk management strategy.

Hundreds of billions of packaged merchandise are imported into Canada every year.

Not all packages can be verified for compliance. So how to determine what to inspect?

## WHAT ARE THE BENEFITS OF WPM CP?

WPM CP is a support tool based on artificial intelligence to allow targeted inspection of imported packages.

For a given package, it shows the likelihood of non-compliance.
